Setting up Pictometry toolbar in ArcMap

1. Open ArcMap, make sure the Pictometry toolbar is visible (**Customize → Toolbars → check Pictometry ArcGIS Desktop-local**), and the Pictometry extension is checked (**Customize → Extensions → check Pictometry for ArcGIS Desktop**).

2. In the Pictometry toolbar, open the Pictometry Viewer Settings dialog box. 📝

3. In the Set Up tab, in the License File field, browse to **T:\PICMETRY.2017\License\New York City DOITT-Colin Reilly-Client License w CA.plf**.

4. In the Set Up tab, in the Local Warehouse field, browse to:
   T:\PICMETRY.2017\NYXNYC17-LIB\NYXNYC17-WHS\NYXNYC17-WHS.PIW. Click Add to add to the warehouse list.

5. Click OK.

6. Add a layer with a spatial reference to ArcMap before you start using the Pictometry toolbar
